EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Motsenboker on April 23, 2004.

Claims 1-4 and 14-16 were cancelled.

In claim 5,

line 4, "caretenoids" was replaced with --carotenoids--;

line 5, the terms "of a" were replaced by --of its--;

line 6, "corresponding to its" was replaced by --encoding--;

line 7, "as shown in" was replaced by --of--;

In claim 12,

line 2, the terms "of a" were replaced by --of its--, and "corresponding to its" was replaced by --encoding--;

line 3, "as shown in" was replaced by --of--;

In claim 13,

line 2, "represented by" was replaced by --selected from the group consisting of--.

The following is an examiner's statement of reasons for allowance:

The claims are allowed because the strains and process steps used in the prior art for the production of carotenoids differs from those claimed herein. There would have been no motivation for one of ordinary skill in the art to modify the processes of the prior art relating to the production of carotenoids by manipulating the ratio of carotenoid compounds produced and recovered by controlling the concentration of dissolved oxygen in the culture during cultivation of a bacterial strain wherein the nucleotide sequence encoding its 16S ribosomal RNA has 98% or more sequence similarity to the nucleotide sequence of SEQ ID NO: 1.
